SUBJECT: Discipline of Students with Disabilities

Generally, should a student with a disability infringe upon the established rules of the school, disciplinary action shall be in accordance with procedures set forth in the Health Sciences Charter School Code of Conduct and in conjunction with applicable law and the determination of the school Principal.

For suspensions or removals up to ten (10) school days in a school year that do not constitute a disciplinary change in placement, students with disabilities must be provided with alternative instruction or services on the same basis as non-disabled students of the same age.

If suspension or removal from the current educational placement constitutes a disciplinary change in placement because it is for more than ten (10) consecutive school days or constitutes a pattern because the suspensions or removals cumulate to more than ten (10) school days in a school year, a manifestation determination must be made.
